About the Author24

Animal Colors

Animals are many different colors.

Their colors often tell
you something special
about them.

Some colors help animals hide
when they hunt.

A tiger blends in with grass.

Its **prey** can't see the animal's
orange and black fur.

Animal COLORS

What They Mean

A tiger's orange and black fur blends in with the tall grass. The tiger stays hidden as it hunts for food. A ladybug is bright red with black spots. Its colors tell birds not to eat it. The insect tastes awful! Look inside to learn all about the special meanings that animal colors have.
