# Rain Forest Colors

Colorful plants and animals live in rain forests.

Their colors tell  
a story.

Many fruits change color when they become **ripe**.

The fruits of some palm trees turn from green to orange.

Now monkeys know the  
fruit is good to eat.

## Index

birds 4–5, 15, 18–19, 22  
chameleon 12–13  
flowers 4, 14–15, 16  
fruit 6–7

# Rain Forest COLORS

Bright and Beautiful

A snake's green, scaly skin blends in with rain forest plants. A rat doesn't see the snake when it attacks! The fruits of a palm tree start out green. When they are ripe, they change to bright orange. Now monkeys know the fruit is ready to eat. Look inside to learn all about the special meanings that colors in a rain forest have.

**Animal Colors:** What They Mean

**City Colors:** From Taxis to Skyscrapers

**Farm Colors:** From Purple Plums to Pink Pigs

**Food Colors:** From Blueberries to Beets
