AWESOME

Wombats!

POP! Two wombats poke their heads out of a **burrow**. It's time for the nightly search for food. At home in a burrow or **grazing** under starry skies, wombats are awesome!

**WOMBATS ARE NOCTURNAL ANIMALS.
THEY ARE ACTIVE MOSTLY AT NIGHT.**

Three of a Kind

Three types of wombats live in the forests and grasslands of Australia. Common, or bare-nosed, wombats have brown fur, round ears, and bare noses. Northern hairy-nosed wombats and southern hairy-nosed wombats have (you guessed it!) hairy noses. They also have gray fur and pointy ears.
