ALL ABOUT POO

Let's take a look at forests all over the world and see who has been pooing in them.

Don't touch
any poo you find
in the forest. Poo
has a lot of nasty
things in it!

On the next pages, you will see poo in
the forest. Learn all about that poo and
think about which animal made it. Then,
turn the page to see if you were right.

WET AND SEEDY

Look at this huge poo! Whose poo could it be?

There are seeds in this poo. The animal must eat a lot of berries.

This poo is very runny. It is a purple-black color.

Whose poo could this be?
Choose which of these three
animals you think did it.

It is a
large poo, so
it probably came
from a larger
animal.

There are some
green bits in this
poo. This animal
has also been
eating plants.

Deer

Wolf

Do I look
like I eat
berries?

Bear
