Grades K-1

Bearcub Books are expertly crafted to help emergent readers foster a love for reading! Each book features carefully leveled text paired closely with bright, captivating photos, making it easy for children to follow along and gain reading confidence.

To assist educators, each book has been carefully reviewed by a reading specialist and also includes a "Teaching Tips" section to engage readers before, during, and after reading.

Grades K-3

Fusion Books introduce beginning readers to the wonderful world of nonfiction. A mixture of illustrations and photographic images invites readers to explore the world around them as they transition into nonfiction reading. Simple and clear text that is suitable for beginning readers introduces fun, factual, and engaging content to invoke curiosity about everyday life—from the wild and wacky to the downright gross.

Grades 2-6

Bear Claw Books are a bold and graphic way to keep readers turning the pages on nonfiction content. Colorful graphic illustrations bring exciting narrative nonfiction to life while engaging backmatter materials provide further context for the shocking true tales. An excellent resource for reluctant readers or anybody who loves a good story!

Grades 2-6

Create! Books go hands on with learning! Simple, step-by-step instructions and large, full-color photographs guide readers through activities and projects that engage their minds and their maker muscles. Projects specially designed with children in mind make curriculum topics approachable for all types of learners—and help them have fun along the way!

Grades 2-7

SilverTip Books reaches upper elementary, middle school, and ELL students struggling to access core curricular topics at reading level. The high-interest design and tone speaks to an older audience while a clear format and 2nd-3rd grade reading level brings them up to speed with their fellow classmates in a clear and concise way. **Dyslexic-friendly font and design** keeps accessibility top of mind while featured SilverTips for Success help readers review what they've learned and prepares them to ace their next test. The entire SilverTip experience is designed with student success in mind!

Grades 3-8

Bearport Books are high-interest, visually appealing books that focus on fun and unusual topics that readers love. Trade-like design, using a combination of both photographs and illustrations, and playful titling are what distinguish us in the K-8 educational market. For over 17 years Bearport has been creating books that feel less like supplemental texts and more like the books children really want to read.

Save the Animals!

Where are the buzzing bees, pudgy polar bears, or great gorillas? Across the globe, animals are disappearing. But there's still hope to stop this tragic trend before it's too late. Bright photos paired with carefully leveled text feature key animal life cycle and environmental science curriculum. A bold range map helps readers pinpoint exactly where each animal lives and practical tips for young readers makes taking action personal. Explore what we can do to save the animals!

Why Does My Body Do That?

Grow! Burp! Achoo! Our bodies make many sounds. But what do all these sounds mean? Explore the wild, wacky, and (sometimes) downright gross things our bodies do. From burps to sneezes, hiccups to yawns, engaging STEM topics with clear text and bright photos make science fun. A final infographic recaps the content for visual learners as they finish flipping through the body books young readers won't want to put down.

See It Happen

When you are too hot, your brain tells your body to sweat.

Sweat is made inside the skin.

It comes out through pores.

Air turns sweat to vapor. This cools you down.

You breathe in.

A big **muscle** in your belly pulls the air in.

Then, it helps push the air back out again.

brain the part of the body that tells other parts what to do

nervous worried or scared

pores tiny holes in the skin

vapor something in the form of a gas

Muscle

Green Trains

Cable

Door

Track

Wheel

Glossary

battery something put in a machine to give it electricity

charge to something

fuel a liquid used to make some trains go

magnets pieces of metal that can pull other metals toward them

recycled things that have been used before and are made into something new

Beep, Beep!

A bus pulls up to your stop.

Its doors open.

Squeak!

But this bus looks different from your school bus.

It is an eco-bus!

What's Up with Water?

Every living thing on Earth needs water to survive. But why do we need it, where does it come from, and how do we save it? This valuable series answers these questions and more while introducing early science concepts to emergent readers. Vibrant photographs and diagrams will aid readers in learning about the water cycle, how people use water, and what that means for the environment.

Read and Rhyme Levels 1, 2, and 3

It's time to read and rhyme! These three series leverage decodable text to introduce young readers to word families through fun and quirky rhyming stories. Each book features 6-10 words from the same word family to reinforce sound and letter combinations. The expertly crafted text uses rhyming patterns along with strong picture cues to help emergent readers get the reading practice they need.

Weather Watch

Look outside! What’s the forecast for today? Introduce young readers to different types of weather. The expertly crafted text uses a repetitive sentence pattern along with strong visual cues to support emergent readers as they build their reading skills and confidence.

Colorful Minds: Tips for Managing Your Emotions

Our minds are full of color. But what do you do when one color shines brighter than the others? This series is the ultimate mindfulness toolkit packed with tips and activities that help readers manage strong emotions. Beautiful and engaging visuals replicate a hand-drawn doodle style while the content aids in self-awareness and personal development for young children, allowing them to find their own ways of dealing with every emotion in the rainbow.

Eco Journeys

When we throw a glass jar, plastic bottle, or soda can in the trash, it goes straight to the landfill. But if we take another simple step, there could be a new life awaiting each item. When we recycle, we go on an eco journey as items get turned into something new. Help save the planet and learn all about how small actions can have big impacts!

Farmer Llama's Farm Machines

Now hiring new farmhands! Aggie, your farmer llama friend, is here to teach you everything you need to know to get the job done at Happy Valley Farm. Farmers feed the world. But with seven billion people to feed, how do they get the job done? Let Aggie be your guide as you learn the basics (the history of hay) right through to advanced lessons (just stay out of the way of the self-driving tractors . . .), and don't forget to earn your llama-diploma! Cute illustrations and photographs help readers learn about different machinery and the history of farming.

Deconstructed Diets

Take a look at a burger, peer at a pizza, and sniff at your sandwich. Do you know what's inside? How about what your food is made of and where it comes from? Let's deconstruct dishes, break them down, and slice them up to find out what they're made of and if they're good for us! This series is a fun mix of illustrations and photographs that introduces readers to nutrition and health concepts as well as exposing them to food from around the world.

Whose Poo?

Have you ever looked down on the ground and seen something brown? It could be squishy or sticky, hard and round, flat and splatted, or piled in a mound. Eww—that's poo! But whose poo could it be? Look inside to find out.

Once Upon a STEM: The Science of Fairy Tales

Have you heard the story of Jack? You know, the one where he plants the magic beans, and a giant beanstalk shoots up into the sky. Have you ever wondered what a scientist would make of that beanstalk? Well, wonder no longer because Professor Everafter is here, and he is going to put these fairy tales under the microscope.

Fuel Up!

What do we do if we are hungry? We eat something, of course! We quench our thirst with a drink and go to sleep when we are tired. Our bodies need all sorts of fuel in order to work their best. But what happens if we don't get everything that we need? Get ready to *Fuel Up!* and learn all about the fuel we need.

Never Forget: Heroes of 9/11

Follow the true stories of heroes on a day that changed America forever: September 11, 2001. This riveting series takes readers into the lives of medics, police officers, and everyday people who faced terrible danger and showed true courage. Dynamic illustrations and first-hand accounts of those who stepped up when others needed them most celebrate the heroes of our nation.

Rescued! Animal Escapes

When disasters strike, people aren't the only ones in danger. Tornadoes, hurricanes, fires, and more also threaten the lives of animals. In this graphic narrative nonfiction series, readers meet heroes who risk their lives to save animals—from cats and dogs to pelicans and pigs! As readers relive the dramatic events surrounding famous disasters, they will witness the courageous rescue attempts that saved the lives of thousands of innocent pets and wild animals.

Mission: Special Ops

The special operations forces of the United States military have a common goal—to save human lives. Through real-life narratives and gripping graphic novel-style illustrations, readers will learn how these heroes defend their nation while performing the most dangerous missions in the world. Each book includes more information on the special ops forces and the gear used by these brave men and women.

Creating the College

How are electors split up? States get electors based on the number of people who live there. Every state has at least three electoral voters. After that, the states with more people get more voters. In total, there are 538 electors.

Electors per State

Each state is allowed to pick their electors. In many states, people from the political parties choose electors.

The number of electors for each state may change every 10 years.

Checks and Balances

The three branches of the federal government share powers.

EXECUTIVE BRANCH
Can veto bills
Can pick judges
Can stop executive orders

LEGISLATIVE BRANCH
Can impeach the president
Can stop laws
Can impeach judges

JUDICIAL BRANCH
Can pick judges
Can stop executive orders

SilverTips for SUCCESS

SilverTips for REVIEW
Review what you've learned. Use the text to help you.

Define key terms
bill
executive order
impeach
judges
veto

Check for understanding
What are the three branches of government?
Describe one power for each branch of government and one way each branch has their power checked.
What was the reason for setting up a system of checks and balances in the United States government?

Think deeper
How do checks and balances impact the people of the United States? Name at least one example.

SilverTips on TEST-TAKING

- Make a study plan. Ask your teacher what the test is going to cover. Then, set aside time to study a little bit every day.
- Read all the questions carefully. Be sure you know what is being asked.
- Skip any questions you don't know how to answer right away. Mark them and come back later if you have time.

Doomed History

There are times and places where humans have been unable to escape danger—where circumstances conspire to create the worst of all possible worlds. Take readers on a high-interest look at places they would not want to be in this dramatic and compelling approach to Doomed History.

A DEADLY DISEASE

In 1665, a terrible disease tore through London, England. Almost one in every four people died of the plague.

Plagues were not new. In the 1300s, a plague called the Black Death swept across Europe. In a few years, it killed a third of all Europeans. There was no cure for this very contagious disease. The sickness most likely started in Asia and traveled to Europe by infecting people along a network of trade routes. In 1625, another outbreak of plague killed 40,000 Londoners.

Spread by Rats
We now know these plagues were caused by a bacteria found on fleas. It spread so quickly because fleas live on rats, which were everywhere from the city's dirty streets to its cramped, unhygienic homes. At the time, however, people thought the disease was caused by something in the air. They tried to protect themselves by sniffing herbs and lighting fires.

Flies on black rats carried the bacterium called *Yersinia pestis* that caused plague.

IN THE SHADOW OF VESUVIUS

August 24, 79 CE

Life in Pompeii
Pompeii was similar to many other Roman cities. There were public baths and an arena where people could watch gladiator fights. Pompeii had shops, theaters, and even fast-food cafes called *thermopolis*. August 24 was a day just like any other. People were shopping in the markets and sharing the news of the day at the baths. But by the next sunrise, many of these people would be dead.

It was a beautiful summer morning in southern Italy. But in just 24 hours, the area would be almost completely destroyed.

The Bay of Naples sits just over 100 miles (160 km) south of Rome. Hundreds of years ago, towns and cities dotted its shoreline, with many well-off Romans setting up vacation homes there. Pompeii was one of the largest cities in the bay, nestled between the smaller towns Stabiae and Herculaneum. At the northern end of the bay was the city of Capri, which the Roman navy used as a base. A mountain called Vesuvius loomed over it all.

Pl. Pompeii: more than 4,000 that (1,200+) above sea level.

X-treme Facts: Engineering

Have you heard of the dam so massive it actually added a fraction of a second to every day? Or seen the bridge that literally disappears below the ocean? Explore these extreme feats of engineering and more through an engaging design and lively text written with a sense of humor. A hands-on activity at the end of each book brings learning about engineering concepts to life. This series features STEM curriculum made fun and is especially wonderful for reluctant readers.

Underground Animal Life

Dig deep into the fox's den, the groundhog's burrow, and more to learn all about creatures that have adapted to life below the soil. Bright photos and carefully leveled text take the curricular concept of habitats and turns it into an adventure exploring with these fascinating animals. A featured Science Lab activity puts readers to the test to use what they've learned and flexes their skills of observation to study the animals further. Get the *hole* truth about animals that live underground!

The Scoop on Poop

Every animal poops, but did you know that this stinky stuff can actually be useful? Ranging from food to fuel, this series uncovers the secret, smelly world of one of the world's ickiest substances. Innovative, grade-appropriate activities and experiments will introduce children to two fundamental components of scientific inquiry—making observations and drawing inferences. And, best of all, each book contains a fun activity!

Titanica

Get ready to set sail on the greatest—and most doomed—ship ever built. In this riveting series, children will learn about all things *Titanica*. They will explore how the massive ship was built, get to know the *Titanica*'s passengers and crew, and experience the terrible accident that sealed the ship's fate. Readers will also uncover spooky and mysterious tales that surround the ship. The fascinating content and large-format color images, maps, and fact boxes bring the tragic story to life.

Countries We Come From

Children can travel around the world without ever leaving their homes or classrooms. In this colorful and exciting series, beginning readers visit countries where their families or their classmates' families may have come from. During the journey, they will learn all about the country's cities, food, holidays, music, and wildlife. They even learn how to speak a few words in the country's language! Each 32-page book features controlled text with age-appropriate vocabulary and simple sentence construction. The engaging text, bold design, and stunning photos are sure to spark children's interest.

Los países de donde venimos

Children can travel around the world without ever leaving their homes or classrooms. In this colorful and exciting series, beginning readers visit countries where their families or their classmates' families may have come from. During the journey, they will learn all about the country's cities, food, holidays, music, and wildlife.

Zombie Zone

For hundreds of years, people have told stories of corpses that rise from the dead and feast on the living. Are these horrifying tales just fiction and superstition? Or could these stories from around the world contain some terrifying grain of truth? This fascinating series gives zombie fans all the information they crave. The books are packed with spine-chilling stories and cool zombie lore, as well as real-life science. Prepare to enter the *Zombie Zone*!

Inflation and You

Sometimes, inflation rates rise very quickly. This can be hard for people. Suddenly, it takes more money to buy the same amount of something. People's wages may not catch up as fast. So, they can't buy as many things.

Between 2020 and 2021, inflation caused higher prices for several foods. The price of a pack of bacon went from \$5.72 to \$7.22. This was a big increase in a short time.
