## Grades K-1

Bearcub Books are expertly crafted to help emergent readers foster a love for reading! Each book features carefully leveled text paired closely with bright, captivating photos, making it easy for children to follow along and gain reading confidence.

To assist educators, each book has been carefully reviewed by a reading specialist and also includes a "Teaching Tips" section to engage readers before, during, and after reading.

## Grades K-3

Fusion Books introduce beginning readers to the wonderful world of nonfiction. A mixture of illustrations and photographic images invites readers to explore the world around them as they transition into nonfiction reading. Simple and clear text that is suitable for beginning readers introduces fun, factual, and engaging content to invoke curiosity about everyday life—from the wild and wacky to the downright gross.

## Grades 2-6

Bear Claw Books are a bold and graphic way to keep readers turning the pages on nonfiction content. Colorful graphic illustrations bring exciting narrative nonfiction to life while engaging backmatter materials provide further context for the shocking true tales. An excellent resource for reluctant readers or anybody who loves a good story!

## Grades 2-6

Create! Books go hands on with learning! Simple, step-by-step instructions and large, full-color photographs guide readers through activities and projects that engage their minds and their maker muscles. Projects specially designed with children in mind make curriculum topics approachable for all types of learners—and help them have fun along the way!

## Grades 2-7

SilverTip Books reaches upper elementary, middle school, and ELL students struggling to access core curricular topics at reading level. The high-interest design and tone speaks to an older audience while a clear format and 2nd-3rd grade reading level brings them up to speed with their fellow classmates in a clear and concise way. Dyslexic-friendly font and design keeps accessibility top of mind while featured SilverTips for Success help readers review what they've learned and prepares them to ace their next test. The entire SilverTip experience is designed with student success in mind!

## Grades 3-8

Bearport Books are high-interest, visually appealing books that focus on fun and unusual topics that readers love. Trade-like design, using a combination of both photographs and illustrations, and playful titling are what distinguish us in the K-8 educational market. For over 17 years Bearport has been creating books that feel less like supplemental texts and more like the books children really want to read.

It is fun to eat ice cream from a cone.

Say invention like in-VEN-chuhn

One day, Ruth tried making chocolate cookies.  
 She put chocolate pieces in dough.

Say dough like doh

Say invention like in-VEN-chuhn

## Why Does My Body Do That?

*Cough! Burp! Sniff!* Our bodies make many sounds. But what do all these sounds mean? Explore the wild, wacky, and (sometimes) downright gross things our bodies do. From burps to coughs, scabs to the shivers, engaging STEM topics with clear text and bright photos makes science fun. A simple infographic refreshes the content for visual learners as they finish flipping through the body books they won't want to put down.

## Past and Present

Take a trip through time to explore how people of the past lived. The history of everyday items and places encourages comparing and contrasting while an invitation to make predictions about the future engages further exploration. In addition to a broader history of the progression over time, supplemental details take a closer look at a specific topic within each title category. Perfect for prompting readers to take a fresh look at the world around them!

Where are the buzzing bees, pudgy polar bears, or great gorillas? Across the globe, animals are disappearing. But there's still hope to stop this tragic trend before it's too late. Bright photos paired with carefully leveled text feature key animal life cycle and environmental science curriculum. A bold range map helps readers pinpoint exactly where each animal lives and practical tips for young readers makes taking action personal. Explore what we can do to save the animals!

**Poet to a President**

It was a big day for Amanda Gorman.

Say gymnastics like jim-NAS-tiks

Simone fell in love with **gymnastics**. She worked very hard. And she was good. Simone started winning **medals** when she was 14.

# Read and Rhyme Levels 1, 2, and 3

It's time to read and rhyme! These three series leverage decodable text to introduce young readers to word families through fun and quirky rhyming stories. Each book features 6-10 words from the same word family to reinforce sound and letter combinations. The expertly crafted text uses rhyming patterns along with strong picture cues to help emergent readers get the reading practice they need.

## Off to Space!

It's *Off to Space* to learn about the sun, moon, planets, and stars! With concepts correlated to early science curriculum standards examined through simple text and diagrams, this series is sure to fly off the shelves. Stunning full-color photographs will guide emergent readers through space while they learn about the objects they see in the sky.

## What's Up with Water?

Every living thing on Earth needs water to survive. But why do we need it, where does it come from, and how do we save it? This valuable series answers these questions and more while introducing early science concepts to emergent readers. Vibrant photographs and diagrams will aid readers in learning about the water cycle, how people use water, and what that means for the environment.

## Animal Fact Files

Fun, fascinating, and fast! Get the scoop on some of the most interesting animals under water, in the air, in the sand, and on land. Quick fact files give a broad overview of everything from buzzing bees to wonderful whales, while highly repeatable facts draw the readers in deeper. Animal lovers and fact-nuts won't be able to get enough of these engaging texts.

## Eco Journeys

When we throw a glass jar, plastic bottle, or soda can in the trash, it goes straight to the landfill. But if we take another simple step, there could be a new life awaiting each item. When we recycle, we go on an eco journey as items get turned into something new. Help save the planet and learn all about how small actions can have big impacts!

**Colorful Minds: Tips for Managing Your Emotions**

Our minds are full of color. But what do you do when one color shines brighter than the others? This series is the ultimate mindfulness toolkit packed with tips and activities that help readers manage strong emotions. Beautiful and engaging visuals replicate a hand-drawn doodle style while the content aids in self-awareness and personal development for young children, allowing them to find their own ways of dealing with every emotion in the rainbow.

## Calm Kids

It's tough being a kid! There are a lot of challenges to face every day. Readers learn how important it is to take some time for themselves to find their inner calm kid with this helpful and relaxing series. An informative introduction to the ways in which young children can relax and take care of themselves, this series is excellent for circle time and active classroom sessions in meditation, yoga, and more.

## Farmer Llama's Farm Machines

Now hiring new farmhands! Aggie, your farmer llama friend, is here to teach you everything you need to know to get the job done at Happy Valley Farm. Farmers feed the world. But with seven billion people to feed, how do they get the job done? Let Aggie be your guide as you learn the basics (the history of hay) right through to advanced lessons (just stay out of the way of the self-driving tractors . . .), and don't forget to earn your llama-diploma! Cute illustrations and photographs help readers learn about different machinery and the history of farming.

## Deconstructed Diets

Take a look at a burger, peer at a pizza, and sniff at your sandwich. Do you know what's inside? How about what your food is made of and where it comes from? Let's deconstruct dishes, break them down, and slice them up to find out what they're made of and if they're good for us! This series is a fun mix of illustrations and photographs that introduces readers to nutrition and health concepts as well as exposing them to food from around the world.

## Once Upon a STEM: The Science of Fairy Tales

Have you heard the story of Jack? You know, the one where he plants the magic beans, and a giant beanstalk shoots up into the sky. Have you ever wondered what a scientist would make of that beanstalk? Well, wonder no longer because Professor Everafter is here, and he is going to put these fairy tales under the microscope.

## Never Forget: Heroes of 9/11

Follow the true stories of heroes on a day that changed America forever: September 11, 2001. This riveting series takes readers into the lives of medics, police officers, and everyday people who faced terrible danger and showed true courage. Dynamic illustrations and first-hand accounts of those who stepped up when others needed them most celebrate the heroes of our nation.

## Rescued! Animal Escapes

When disasters strike, people aren't the only ones in danger. Tornadoes, hurricanes, fires, and more also threaten the lives of animals. In this graphic narrative nonfiction series, readers meet heroes who risk their lives to save animals—from cats and dogs to pelicans and pigs! As readers relive the dramatic events surrounding famous disasters, they will witness the courageous rescue attempts that saved the lives of thousands of innocent pets and wild animals.

### O-La-Llama Rice Cakes

Everyone loves food with a little crunch. Dress up rice cakes with some cream cheese and fruit to enjoy a treat that you'll o-la-llama love!

1 Use the butter knife to spread 1 tablespoon of cream cheese in a ring on the top of each rice cake. Leave the center part empty.

2 Next, use a butter knife to cut four banana slices about 1/4 inch (1.25 cm) thick.

3 Place one banana slice on each rice cake, overlapping the cream cheese and the empty part of the circle. This is the snout.

4 Cut the two remaining banana slices in half. Place two halves on each rice cake to make llama ears.

5 Finally, for each rice cake, place one blueberry on the banana snout and two blueberries below the ears to make eyes.

Makes 2 rice cakes

You can also make these rice cakes with peanut butter instead of cream cheese!

### An Octopus Chef!

Roll up your sleeves and get ready to cook. I'm Chef Octopus, and I'm going to show you some fun and easy recipes. I hope you're hungry!

Before we get started, take a look at these tips to help you become a super chef:

- Always wash your hands with soap and water before cooking.
- Be sure your work surface and equipment are clean.

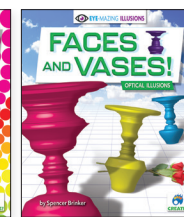

I have one more important thing to tell you. All the recipes in this book are for people to enjoy. Never feed any of this food to animals!

- Carefully read the recipes before starting. Ask an adult for help if you have any questions.
- Always ask an adult to help keep you safe when using sharp knives, ovens, or blenders.
- Gather your equipment before you start.
- Measure all your ingredients carefully.
- Wash and dry all fresh fruits and vegetables before using them in the recipes.
- When you're done cooking, be sure to clean up the kitchen. Wash, dry, and put away your equipment.

## Eye-mazing Illusions

Prepare to be amazed! Optical illusions are tricks that our eyes and brain play on us to make us see things differently. Explore the science behind what makes them work using color, light, and patterns. Featuring fun illusions, these books are totally mind-boggling!

### Ways to Earn

People earn money in different ways depending on the job. Here are some of the ways workers make money.

- Wage Workers**
  - Regular Pay: Paid for each hour of work.
  - More Money: Tips, Extra hours/overtime.
- Salary Workers**
  - Regular Pay: Paid a yearly amount.
  - More Money: Commission from many sales, Bonus, Commission from a large sale.
- Commission Workers**
  - Regular Pay: Paid a yearly amount.
  - More Money: Commission from many sales, Commission from a large sale.

### SilverTips for SUCCESS

★ **SilverTips for REVIEW**  
Review what you've learned. Use the text to help you.

**Define key terms**  
employee, employer, entrepreneur, salary, wage

Check for understanding  
What are two ways people can earn money? What is the difference between full-time and part-time jobs? How is an entrepreneur different from an employee?

Think deeper  
How are different ways of making money better in different situations?

★ **SilverTips on TEST-TAKING**

- **Make a study plan.** Ask your teacher what the test is going to cover. Then, set aside time to study a little bit every day.
- **Read all the questions carefully.** Be sure you know what is being asked.
- **Skip any questions you don't know how to answer right away.** Mark them and come back later if you have time.

### Make Money with Your Money

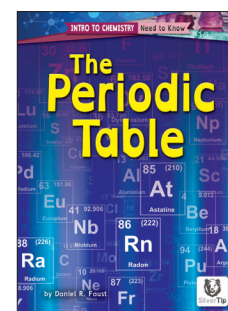

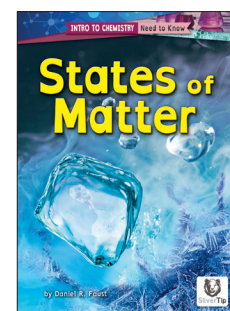

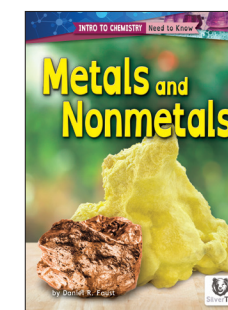

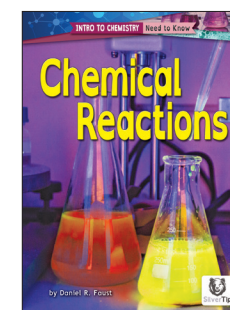

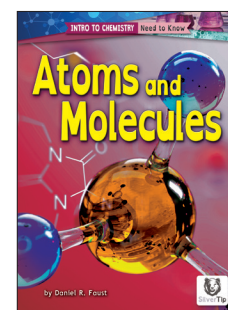

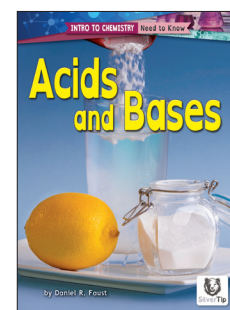

If you get money for your birthday, what do you do? You might spend it right away or save it for another time. But you can also use your money to make more money. How does this work? It can happen when you're investing.

Investing isn't the only way to grow money. If you put cash into a savings account, it makes a little extra money called interest.

## Intro to Chemistry: Need to Know

Make science learning easy and fun with this curricular high-interest, low reading level series all about chemistry. An engaging exploration of the chemical world around us keeps struggling readers interested while carefully leveled text paired with a dyslexic-friendly font and design make learning easy. Featured infographics and SilverTips for Success guide a review of key concepts from the book to reinforce comprehension and help readers ace their next test.

### Acids and Bases

Everything can be found somewhere along the pH scale. What can we expect from acids and bases depending on where they fall?

### SilverTips for SUCCESS

★ **SilverTips for REVIEW**  
Review what you've learned. Use the text to help you.

**Define key terms**  
acid, base, ion, neutral, pH scale

Check for understanding  
Describe the properties of acids and bases. What is the same and what is different about them? How do ions make something an acid or a base? What is the purpose of the pH scale, and how can it be tested?

Think deeper  
Use your understanding of acids and bases to think of two things not mentioned in this book that are acids. Think of two more bases.

★ **SilverTips on TEST-TAKING**

- **Make a study plan.** Ask your teacher what the test is going to cover. Then, set aside time to study a little bit every day.
- **Read all the questions carefully.** Be sure you know what is being asked.
- **Skip any questions you don't know how to answer right away.** Mark them and come back later if you have time.

### Changing States

Matter can change from one state to another. To do this, the molecules need to move faster or slower than they already are. Taking in energy makes molecules move more quickly. Matter can also lose energy, which makes the molecules move more slowly.

Heat is the most common form of energy that makes matter change state. Leave a candy bar in the sun or stick an ice cream treat in the freezer. What happens?

# Intro to Physics: Need to Know

From the power in our homes, to the forces that keep us moving, physics is a part of daily life. Explore this curricular high-interest, low-reading-level content presented in a way that is accessible for struggling readers so they can ace their tests alongside their classmates. Dyslexia-friendly font and a clean design make content accessible. A featured infographic helps recap key concepts for visual learners and SilverTips for Success reinforce comprehension for what readers need to know.

**READING LEVEL:** Grade 2-3  
**INTEREST LEVEL:** Grades 5-7

### SPECIFICATIONS

32 pages  
6.5" x 9"

### FEATURES

- Dyslexic-friendly font used for content as well as dyslexic-friendly design where possible
- Content struggling readers need to understand at a reading level where they can experience success
- Large, full-color photographs
- Curricular hi-lo series will keep struggling readers interested
- Includes Silver Tips for Success, easy-to-follow tips for successful review and testing

### All about Atoms

All that electrical energy starts with something very, very small. Everything is made of tiny atoms. And atoms are made of even smaller parts. A nucleus at the center of the atom has protons and neutrons. Electrons move around the nucleus.

Electrons spin around the nucleus extremely fast. Because of this, scientists can only guess where they are at any given time.

### A Model of an Atom

Labels: Proton, Neutron, Electron, Nucleus

### Light and Sound Waves

Sound and light waves both move energy. But they do it in different ways.

Light travels in transverse waves. Labels: Crest, Trough, Amplitude, Wavelength.

Sound travels in longitudinal waves. Labels: Compression, Rarefaction.

### SilverTips for SUCCESS

**SilverTips for REVIEW**  
Review what you've learned. Use the text to help you.

**Define key terms**  
amplitude, crest, energy, trough, wavelength

**Check for understanding**  
What is similar about sound and light? How do we see color? Describe the differences between how longitudinal and transverse waves travel.

**Think deeper**  
How do the different ways sound and light travel change the way you experience these forms of energy?

**SilverTips on TEST-TAKING**

- Make a study plan. Ask your teacher what the test is going to cover. Then, set aside time to study a little bit every day.
- Read all the questions carefully. Be sure you know what is being asked.
- Skip any questions you don't know how to answer right away. Mark them and come back later if you have time.

### Making Igneous Rock

There are many ways that rocks form and change in the rock cycle. Igneous rock can form deep underground. Beneath Earth's rocky crust, there is an area where rock gets very hot. The hot rock melts into soft, flowing magma. This is the first step of making igneous rock.

The hot area below Earth's crust is called the mantle. This is where rock becomes magma.

### A Look into the Fossil Record

The fossil record is broken into time periods. Different things lived during these different times.

- Cenozoic**  
66 million years ago to today
- Mesozoic**  
252 million years ago to 66 million years ago
- Paleozoic**  
541 million years ago to 252 million years ago

**SilverTips for REVIEW**  
Review what you've learned. Use the text to help you.

**Define key terms**  
fossils, laboratories, minerals, paleontologists, layers

**Check for understanding**  
What are fossils? How are they formed? Describe two things that can become fossils. What is the same about these things and what is different? What role does water play in forming fossils?

**Think deeper**  
What can people learn from studying fossils? Why do fossils matter?

**SilverTips on TEST-TAKING**

- Make a study plan. Ask your teacher what the test is going to cover. Then, set aside time to study a little bit every day.
- Read all the questions carefully. Be sure you know what is being asked.
- Skip any questions you don't know how to answer right away. Mark them and come back later if you have time.

### In the News: Need to Know

News moves fast, and understanding what's happening is important for young readers engaging with their world. Explore some of the biggest stories we face today. Carefully leveled text makes the important content approachable for struggling readers at their level while a dyslexia-friendly font and clean design further improve accessibility. Featured quotes from the news help capture the information as it is currently being discussed, and SilverTips for Success review key concepts to reinforce comprehension so readers are sure to understand what they need to know in this curricular hi-lo series.

**READING LEVEL:** Grades 2-3  
**INTEREST LEVEL:** Grades 5-7

**SPECIFICATIONS**

32 pages  
6.5" x 9"

### U.S. Government: Need to Know

With all that is happening on Capitol Hill, it can be hard to understand the United States government. That's why *U.S. Government: Need to Know* integrates a dyslexia-friendly font with a clear, high-interest design to walk struggling readers through key concepts about the U.S. government, including who works in each branch, what they do, and how all of the branches work together. This curricular hi-lo approach pairs with featured infographics and SilverTips for Success to guide readers in reviewing key concepts from the books, reinforce comprehension, and even learn test-taking tips.

**READING LEVEL:** Grades 2-3

**A Movement Like No Other**

Segregation continued for years, even though it was very unfair. Then, in the 1950s and 1960s, many people began protesting. They wanted more laws to protect Black people. This fight for change became known as the civil rights movement.

People protested in many ways. Sometimes, they went to segregated places and wouldn't leave. Other times, thousands of people marched together.

**How Data Gets Stolen**

For as long as computers have been around, people have tried to use them to steal information. One way people steal information is by **hacking**, or breaking into computers online. Sometimes, hackers use computer viruses. These are computer programs written to steal or **destroy** information.

When someone tries to steal information from a computer or on the internet, it is called a **cyberattack**.

**Creating the College**

How are electors split up? States get electors based on the number of people who live there. Every state has at least three electoral voters. After that, the states with more people get more voters. In total, there are 538 electors.

Each state is allowed to pick their electors. In many states, people from the **political parties** choose electors.

The number of electors for each state may change every 10 years.

**Checks and Balances**

The three branches of the federal government share power.

**EXECUTIVE BRANCH**  
Can veto bills  
Can pick judges  
Can stop executive orders

**LEGISLATIVE BRANCH**  
Can impeach the president  
Can stop laws  
Can impeach judges

**JUDICIAL BRANCH**  
Can stop executive orders

**SilverTips for SUCCESS**

**SilverTips for REVIEW**  
Review what you've learned. Use the text to help you.

**Define key terms**  
bill  
executive order  
impeach  
judges  
veto

**Check for understanding**  
What are the three branches of government? Describe one power for each branch of government and one way each branch has their power checked. What was the reason for setting up a system of checks and balances in the United States government?

**Think deeper**  
How do checks and balances impact the people of the United States? Name at least one example.

**SilverTips on TEST-TAKING**

- Make a study plan. Ask your teacher what the test is going to cover. Then, set aside time to study a little bit every day.
- Read all the questions carefully. Be sure you know what is being asked.
- Skip any questions you don't know how to answer right away. Mark them and come back later if you have time.

Climate is the usual weather found in a place, from how much rain it gets in a year to a change in temperature during a certain month or season. Earth's climate is always changing, but what does that really mean? Let's investigate the problem of climate change and explore its impact on our planet, the animals around us, and ourselves. Readers will learn the problems of the present, what they might face in the future, and what they can do to help.

# Life on Earth! Biodiversity Explained

From the open ocean to the forest floor, living things are in danger. Explore the importance of biodiversity and the current threats against the plants and animals that are key to the survival of entire ecosystems. Investigate and explore the impact of a loss of biodiversity on our planet, the direct effects on animals around us, and how it could negatively impact humans. Readers will learn the problems of the present, what they might face in the future, and what they can do to help all life on Earth.

**A Young Winner**

Lupita Nyong'o cried tears of joy as she held her **award**. The crowd clapped and cheered for the young actor who just won the 2014 Oscar for Best Supporting Actress. It was Lupita's first role in a major movie, and she had just earned one of the biggest awards in the business.

Lupita's first movie, *12 Years a Slave*, was a hit! She won many awards for her part in it.

Lupita was 29 when she got the part.

**Queen of Firsts**

Throughout her rule, Elizabeth **challenged** the way the royal family did things. When she was crowned, she asked for the event to be broadcast on television so everyone could watch. Elizabeth was the first British monarch to walk in crowds and shake hands with people. Elizabeth wanted to be accessible to those she served.

Elizabeth loved to spend her spare time with her corgis and horses.

Queen Elizabeth wanted to know her people, and she wanted her people to know her.

## Country Explorers

Join us as we travel the world in *Country Explorers*! Each of these engaging books will take readers on a journey throughout a fascinating country. Designed and written with young explorers in mind, readers will discover the regions, geography, people, and celebrations of countries around the world.

NEW FOR FALL

NEW FOR SPRING

## Underground Animal Life

Dig deep into the fox's den, the groundhog's burrow, and more to learn all about creatures that have adapted to life below the soil. Bright photos and carefully leveled text take the curricular concept of habitats and turns it into an adventure exploring with these fascinating animals. A featured Science Lab activity puts readers to the test to use what they've learned and flexes their skills of observation to study the animals further. Get the *hole* truth about animals that live underground!

**READING LEVEL:** Grades 2–3  
**INTEREST LEVEL:** Grades 1–4

### SPECIFICATIONS

24 pages  
7.5" x 7.5"

### FEATURES

- Full-color images of animals' underground homes
- Science Lab activity engages young scientists
- Information on habitat, life cycle, diet, and behavior

### CURRICULUM CONNECTION

Animal Life Cycles  
Animal Habitats  
Animal Classifications

## Amazing Animal Self-Defense

They can ooze blood and cover attackers with gooey slime. Some leave predators dodging deadly quills or running from terrible stink. Animal defenses can be downright gross! Join the high-interest journey for a look at key science curriculum filled with the most disgusting animal responses to threats. Carefully leveled text and gory photos will have readers saying ewww—then quickly turning the page for more!

## Inside a Burrow

All the adults in a family help build the burrow. Sharp prairie dog claws dig out several entrances. Below some, they make listening rooms. Then, they keep digging to make a long tunnel. The prairie dogs make a bedroom, where the family sleeps, and nesting rooms for when females are ready to have babies.

Prairie dogs make mounds of dirt around each entrance. This keeps rainwater out.

## Life in the Den

For the first few weeks, the mother stays in the den. She feeds the cubs milk from her body and licks them to keep them clean. Once they are a little older, the mother takes short trips out of the den. The babies stay behind while she finds food.

A litter of foxes usually has five cubs. But it can include as many as 14!

## FROG POWER!

In the steamy rain forest, a hairy tarantula spots a bright yellow frog to eat for dinner. The tiny frog is no match for the spider... or is it? The spider sinks its fangs into the frog. Soon, the eight-legged creature starts foaming at the mouth. The spider's heart stops, and it drops dead. It was trying to eat a poison dart frog!

Though not all poison frogs are deadly, some have enough poison to kill 10 adults!

## A SMELLY

Some people say a skunk's stinky spray smells like burnt rubber or even rotten eggs!

# Library of Awesome Animals

In this series, readers will learn about animals that are adorable, weird, and especially awesome! Eye-catching photos closely align with clear, descriptive text to take readers into the wold world of awesome animals. These delightful, informative books will quickly become children's favorites.

**MORE ABOUT BULL SHARKS**  
In 1937, a bull shark was found in the Mississippi River in Illinois. It swam thousands of miles from the Gulf of Mexico!  
The largest bull shark ever found was about 13 ft (4 m) long.  
The bull shark is also known by many other names, including river shark and square-nose shark.  
Bull sharks often live in water that's less than 100 ft (30.5 m) deep.

**GLOSSARY**  
adapted: changed over time to survive in certain surroundings  
bulky: thick and wide  
female: a bull shark that can give birth to young  
force: power or strength  
males: bull sharks that cannot give birth to young  
mate: to come together to have young  
murky: cloudy or not very clear  
predators: animals that hunt other animals for food  
prey: animals that are hunted by other animals  
survive: to stay alive  
threat: something that could cause harm

**SPEEDY GIANTS**  
These sharks make their way through the ocean quickly. Great whites can swim up to 35 miles per hour (56 kph).  
And the fast swimmers are among the biggest fish in the ocean. The largest great whites weigh up to 5,000 pounds (2,270 kg). That's as heavy as an SUV!  
Great white sharks can be more than 20 feet (6 m) long.

# Slither!

Fascinating information and stunning photographs will keep children engaged as they learn about the natural habitats, physical characteristics, diets, and behaviors of snakes.

# Bugged Out! The World's Most Dangerous Bugs

Creepy, crawly, and downright deadly! This narrative nonfiction series introduces young readers to mosquitoes, ticks, fleas, and other creatures that carry or cause horrifying diseases. Each book is packed with interesting information about the organism's life cycle, how it transmits diseases, and how to protect yourself from becoming its victim. This series also includes captivating real-life stories about people who were attacked by the world's most dangerous bugs—and lived to tell the terrifying tale.

## The Scoop on Poop

Every animal poops, but did you know that this stinky stuff can actually be useful? Ranging from food to fuel, this series uncovers the secret, smelly world of one of the world's ickiest substances. Innovative, grade-appropriate activities and experiments will introduce children to two fundamental components of scientific inquiry—making observations and drawing inferences. And, best of all, each book contains a fun activity!

## Zombie Zone

For hundreds of years, people have told stories of corpses that rise from the dead and feast on the living. Are these horrifying tales just fiction and superstition? Or could these stories from around the world contain some terrifying grain of truth? This fascinating series gives zombie fans all the information they crave. The books are packed with spine-chilling stories and cool zombie lore, as well as real-life science. Prepare to enter the *Zombie Zone*!
