About the Author	24

What's this weird
but cute animal?

It's a
barn owl.

A Great Horned Owl is shown in flight, facing forward. Its wings are spread wide, revealing the underside of the primary feathers which are a mix of white and light brown. The owl's face is white with a heart-shaped pattern around its eyes. Its body is also white with some brown mottling on its back. The background is a solid, vibrant green.

Heart-
shaped
face!

Long wings!

How big is a barn owl?

It's about the size of
an adult cat.

Yet it only weighs as
much as a kitten!

A male barn owl is shown in profile, facing left. It has a white face with large, dark eyes and a small, hooked beak. Its body is covered in brown and white mottled feathers. The owl is standing in a field of green grass. A pink speech bubble is in the upper right corner.

Male barn owls
are smaller than
female barn owls.
