Carrot

Carrots are
delicious.

4

They are often long and orange.

How did they
get that way?

An American will eat
about 10,000 carrots
in his or her lifetime.

A carrot starts out as a tiny seed.

carrot
seeds

Carrot seeds are very small. A teaspoon can hold hundreds of them!

In early spring, the seed is planted
in the ground.

Then, the seed is watered.

All plants need sunlight and
water to grow.
